

## Tons of Steel (according to andDave)

Intro:

**F** **C**

**F** **Bb**

I know these rails we're on like I know my lady's smile.

**F** **C**

We've seen a dozen dreams in every passing mile.

**F** **Bb**

Can't begin to count the trips that she and I have made, But I

**Bb** **C**

wish I had a dollar for each time we've both been down this grade.

### Refrain

**Bb** **C** **F** **F**

Nine hundred thousand tons of steel Made to roll

**Eb** **Bb** **Bb** **C**

Brakes don't work and this grade's too steep Engine's sure to blow

**Bb** **C** **Dm**

Nine hundred thousand tons of steel Out of control

**Gm** **Bb** **C** **C**

She's more a roller coaster Than the train I used to know

It's one hell of an understatement to say she can be mean.

She's temperamental, more a bitch than a machine.

She wasn't built to travel at the speed a rumor flies.

These wheels bound to jump the tracks before they burn the ties.

### Refrain

### Instrumental VERSE

### Refrain (with vocals, not instrumental)

Murphy sure outdone himself to pick this stretch of track.

I can only hope my luck is riding in the back.

Well I have prayed to God this ain't the day we meet

I've done about everything but try dragging my feet.

### Refrain > Break

**Bb** **C** **F**

Ooh, ooh, I want to go down slow.

**Eb** **Bb** **C**

Ooooooh, ooh, ooh, ooh, ooh, ooh!

### Refrain

### Instrumental refrain, ending on Dm instead of C
